

SLOW FASHION BRAND

LOOK

madewithlove

MADE IN POLAND

LOOKMADE WITH LOVE

is femininity, self-confidence,
satisfaction and harmony.

It is a responsible slow fashion. It is a proposal for
the day-dreamers who can find joy in their everyday life, who take care of
themselves and their nearest and dearest, who are positive about the world.

We want to highlight their colorful, natural
personalities, we want to give them comfort and ease
We tell stories with our clothes weaving dreams into
them.

sustainable fashion

We promote sustainable fashion by ensuring that all our clothes are produced by using natural materials for the sake of the environment. We reduce the consumption of materials and production waste to a minimum by re-using them in #zerowaste philosophy

fair trade

We support fair trade in business. We base on three basic principles: production transparency, price transparency, social trust
We openly inform about the place of production of each item from the design to the effect #transparent

quality and hadmade
We make sure that the customer receives good quality products at a reasonable price. Each model is prepared with a great concern about every detail, whether it is label, flap or lockstitch. Each style in our collection includes #handmade elements.

trust and co-working
We organize joint initiatives in the spirit of #coworking, we support each other among small entrepreneurs by creating local creative ventures. We cultivate healthy #worklifebalance with respect for ourselves and our employees.
